Education

Bachelor of Science in Computer Science 2021-2026
University of Mindanao

Experience

- Front End Developer - Intern** 2025
Mini Clean Business Solution (Infosoft)
 - Designed a high-fidelity mobile app prototype (20+ screens) in Figma, supporting 5+ core farmer workflows and improving UI clarity and navigation.
 - Implemented front-end UI using Flutter for a 2-platform mobile app (Android & iOS), delivering 100% responsive layouts across multiple screen sizes.
- Freelance Design Entrepreneur** 2021-present
Self-employed
 - Managed a small design business, delivering 50+ customized souvenirs and visual materials using Canva for various clients.
 - Designed 100+ materials, including invitations, ID cards, social media graphics, and branded merchandise, ensuring brand consistency.
 - Collaborated with 20+ clients to understand needs and provide tailored, visually impactful design solutions.
 - Maintained a 100% on-time delivery rate while ensuring high-quality outputs aligned with client expectations and brand identity.
- Publication Material Editor** 2024-2025
Freelance / Solumi, Tibungco, Davao City
 - Design and edit 30+ print and digital materials, including menus, promotional posters, and announcements for a coffee shop in Tibungco, Davao City.
 - Apply creative design principles to enhance customer engagement by improving visual appeal and reinforcing brand identity.
 - Collaborate with management to produce materials that maintain consistent branding across all touchpoints.
- Design Editor** 2019 - 2025
Dr. Santiago Dakudao Sr. National High School
 - Designed and produced 50+ educational and administrative materials using Canva and Adobe Photoshop, including ID cards, classroom visuals, and official documents.
 - Created clear and professional layouts that improved visual communication and organization within the school.
 - Developed strong skills in layout design, attention to detail, and adherence to brand/educational guidelines.
- Animation & Programming - Intern** 2020
F-Squared Technologies Inc.
 - Applied programming and animation tools to create 5+ visual assets, improving project workflow efficiency.
 - Gained hands-on experience with industry-standard software and animation pipelines, accelerating learning of professional production practices.
 - Supported the team in streamlining animation tasks, reducing review and iteration time by ~15%.
